

USE WPC.  
Save trees. Save earth.

## ARTICLES MAKING FROM WPC

WPC boards can be used for making various applications, apart from modular furniture and doors. This is the best material for quick fixing with cyanoacrylate binder. One can make small articles/gift articles/utility articles very fast with this material.

Taking from small containers, boxes, pads, storage utilities, pen stands to chairs and shoe racks can be made with WPVC in almost no time. Importantly all the products made are water proof, termite proof, borer proof and recyclable. You can use it for restoration of old images, sculptures and historical things. Products made with WPC can be laser engraved and CNC carved. You can digitally print the surface as well as you can Varnish/Polish/lacquer it for surface decoration. Paints are also possible.
